

HEAT PIPES FOR AIR-TO-AIR HEAT RECOVERY

Colmac Coil's heat pipes are built to capture and reuse valuable energy, so you can **stop wasting energy** and **start saving money**. This technology has been used in many applications worldwide including colleges, hospitals, gymnasiums, prisons, schools, military and government buildings, and casinos.

See the reverse side of this flyer for a list of facilities saving energy with Colmac Coil heat pipe technology

Calculated savings based on:				
1. ASHRAE HDD65 and CDH74 climate data.				
2. Cost of electricity = \$0.10/kWh				
3. Cost of natural gas = \$10/MCF				
4. Chiller efficiency = 0.65 kW/TR				
5. Boiler efficiency = 80%				
6. Heat Pipe heat recovery efficiency = 65%
